Tokaido black belts are made of a thick canvas core, covered with an outer layer of Cotton (BLC special grade), Satin (BLS) or Pure Silk (BLH). The secret in the manufacturing of our belts is that the parts are cut and embroidered separately before being assembled and sewn together. This is the reason why they are so strong, neat and beautifully finished. The embroidery will not show through on the reverse side. At Tokaido, we have made a commitment to excellence and beauty, even if this means having to work harder to achieve these goals.

The #s 1, 2, 3, and 4 correspond to the fields:

1. Embroidery 1
2. Embroidery 2
3. Embroidery 3
4. Embroidery 4

of the order form

Embroidery is possible on all four sides without it showing through on the reverse side.

Some styles prefer the label after personal names, others prefer it after their Style kanji. Please choose accordingly.

For **Japanese text embroidery**, please select by clicking on the “**Kanji Style Names**” and/or “**Names in Japanese Katakana**” Then click on your choice. If your name is not in our menu then use the google translate link in the **Product Description below** to CREATE, COPY, and PASTE into the field you desire. For any other language type directly in the field you desire.

For **Dan Bars** type the letter X in the desired position and make a comment in the **NOTES -Comments** section at the bottom of the page. e.g. “XX is for 2 dan bars after my name”. Please note the Xs must be typed before or after any other embroidery as you desire for placement. Dan Bars will be embroidered on only one side. You must put Xs on the reverse side too if you wish dan bars all around the end.

**Embroidery 1:**
